Our BUSINESS

Our MISSION

Tremco Pipeline is dedicated to supplying a large range of quality products to service the requirements of the pipeline industry, for construction, maintenance and emergency response.

We pride ourselves on our industry experience, knowledge and back up service, which will assist you in selecting the right product for your application first time.

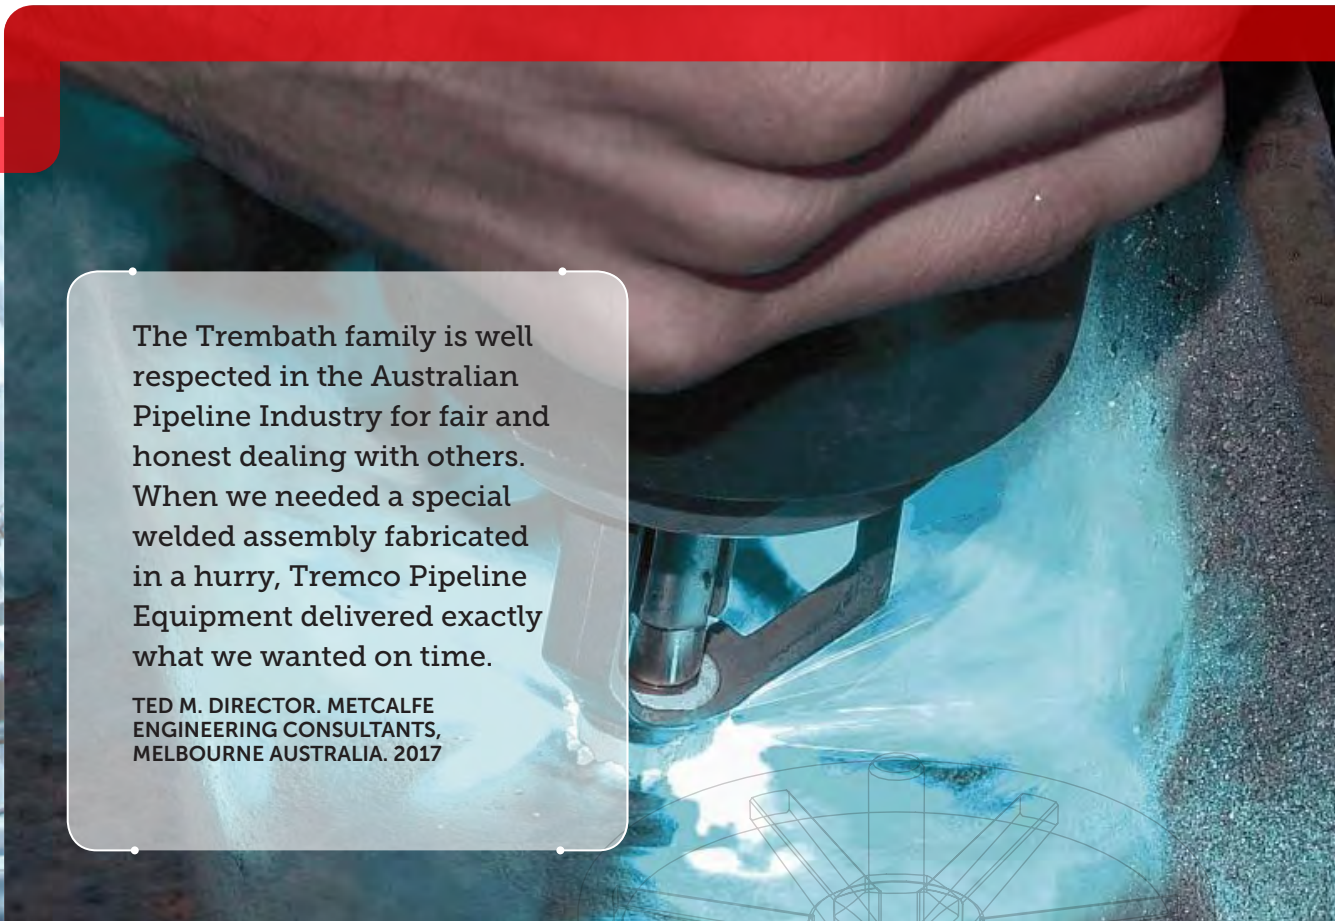

Our BUSINESS

- Ron and Margaret Trembath established Tremco Pipeline Equipment in 1993. It remains an Australian family owned and operated company, based in Brisbane.
- Tremco Pipeline Equipment has a reputation for integrity, honesty and fairness in the industry.
- Tremco Pipeline Equipment services the pipeline construction and maintenance requirements of the Oil, Gas, Water and Petrochemical Industries within Australia, New Zealand, Papua New Guinea & the Pacific Islands.
- Our Company supplies a variety of quality products and equipment for new construction as well as emergency response, maintenance and repairs.
- The products supplied by us are renowned for their quality: e.g. Plidco, Petro-Line, Girard, Maloney, CDI, Alta tape and Spy Holiday Detectors.
- We provide back up service on products we supply and emergency support.

Our COMPANY APPROACH

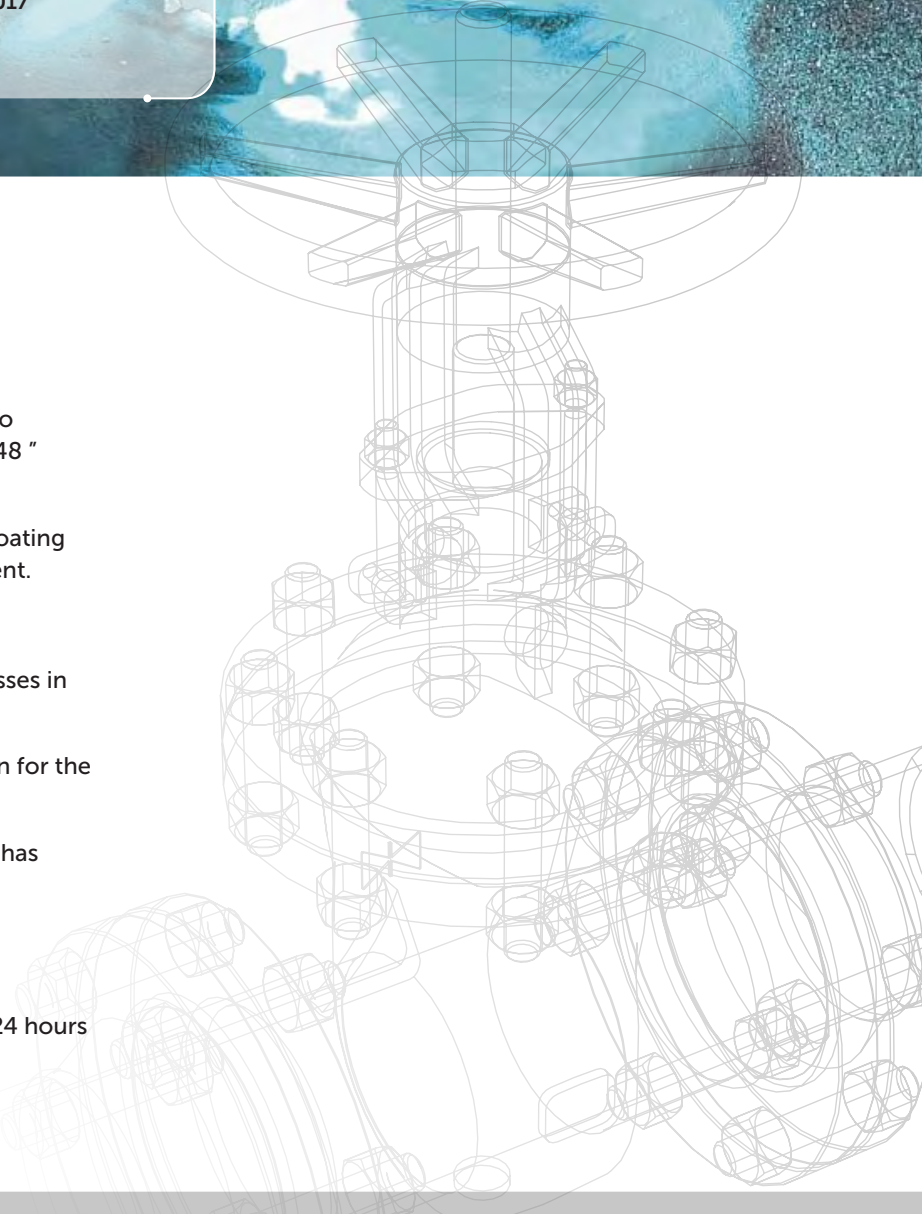

- Over the years we have developed longstanding relationships with our customers, engineers, contractors and our overseas suppliers.
- Our longevity in the business contributes to a sustainable and efficient supply chain. We are often referred to as the preferred supplier of pipeline equipment in the industry.
- Due to our experience and knowledge we are considered a reliable resource.
- We have a strong team of committed staff to ensure we give consistent information and well-timed replies.
- We focus on giving accurate information on our products, for their correct application and installation.
- We carry an extensive range of stock, however, for specialised products, we will provide accurate information regarding ex-works availability when quoting.
- We believe efficient communication between clients, our suppliers & ourselves is of utmost importance when responding to all enquiries.
- We pride ourselves on providing quality products & workmanship to our customers.

The Trembath family is well respected in the Australian Pipeline Industry for fair and honest dealing with others. When we needed a special welded assembly fabricated in a hurry, Tremco Pipeline Equipment delivered exactly what we wanted on time.

Quality and Safety

Tremco Pipeline Equipment maintains a commonsense approach to quality and safety and is committed to the health and safety of its employees and maintains safe work practices.

It has been well over 15 years since I first dealt with Tremco Pipeline Equipment. Tremco Pipeline Equipment don't just supply pipeline equipment or products they provide professional and quality service. A great bunch of people to deal and work with. Thanks for all the support and services over the years.

ANDREW H. PIPELINE & PRESSURE
VESSEL ENGINEER. ADETRA PTY LTD

Our Past Projects

Spanning more than two decades, we have been heavily committed to the pipeline industry, from on-shore to off-shore projects & Refinery Terminals: e.g.

- Moomba to Sydney
- Ballera to Mt. Isa
- Off-shore platforms (ESSO)
- Refinery Terminals
 - Shell J.U.H.I.
 - Caltex Sydney/Melbourne/Brisbane
 - WAG Pipeline
 - Exxon Mobil

Tremco Pipeline Equipment have been involved in pipeline infrastructure in Australia, New Zealand, Papua New Guinea and the Pacific Islands.

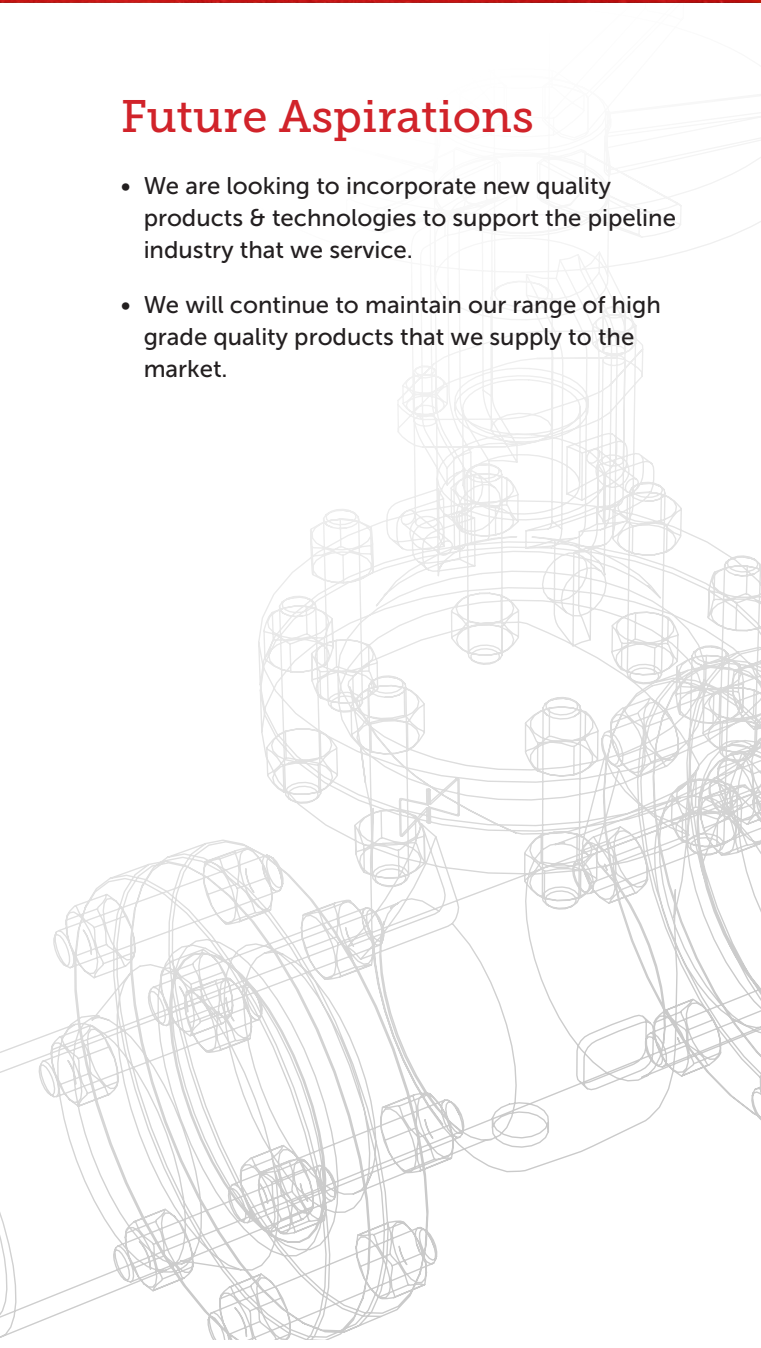

In 1994 our first major project was on the Gilmore to Barcaldine Pipeline, we supplied construction equipment, and on-site technical support for the application of the anti-corrosion Over-the-Ditch Coating Tape.

Over the past 24 years we have supplied construction, maintenance & emergency response equipment to the majority of major pipelines constructed in Australia including the 42" diameter LNG projects in Queensland (QCLNG, APLNG & GLNG). We have been and continue to be involved in supplying quality equipment throughout the Oil, Gas, Petrochemical and Water Pipeline Industries.

Future Aspirations

- We are looking to incorporate new quality products & technologies to support the pipeline industry that we service.
- We will continue to maintain our range of high grade quality products that we supply to the market.
