

Girard Pig Valve Pigs

- Made of the highest quality polyurethane elastomer available.
- One-piece solid polyurethane construction; no assembly necessary.
- Engineered for longer wear and abrasion resistance.
- Versatile. Can be run in LPG, crude oil, natural gas, saltwater and product lines.
- Excellent for liquid removal.

The Turbo-Flow

This pig is a solid-cast polyurethane pig available for 2" through 8" pipe. The disc-cup design combines the effective wiping action of the disc with the superior sealing capabilities of the cup. For more aggressive cleaning wire brushes can be added to 6" and 8" pigs.

The Turbo-Flow BD

This pig is a solid-cast polyurethane pig available for 2" through 8" pipe. The multi-disc design allows for bi-directional pigging as well as effective wiping and sealing.

PV Polly Pig

This pig is a polyurethane foam pig available for 2" through 12" pipe.

PV Mandrel Pig

This pig is a steel body brush pig with replaceable polyurethane scraper cups. It is available is 4" through 12".
