30 Seconds (or less!) Sales Statement:

For a simple, dependable welding rod storage solution that'll last a lifetime, Sawyer's Welding Rod Bucket is the best there is. This 4.5 gallon, stainless steel bucket is simply enormous, and the four pre-formed partitions keep all your rods, including 7018 and 6010, separated for easy access. It's strong enough to hold over 500 pounds, but moving it is made easy with the integrated easy-carry handle.
