

MX1 Chain Beveling Machine

Model 211

OVERVIEW

The MX1 Chain Cutting Machine is a flame beveling machine designed to cut pipes and tubes 4" and larger. Spiral and seam welded pipes are no problem for this heavy duty, robust unit. The adjustable wheel positioning system improves accuracy across a range of different pipe diameters. The accuracy, versatility and quality of this unit make it hard to beat for chain cutting applications. Even plasma cutting is achievable with our optional plasma motorizing kit.

FEATURES AND BENEFITS

- Available for pipe 4" and larger
- 3-link chain and gear system for incredible accuracy
- Out of Round device can be used anywhere on the torch arm
- Spiral weld pipes are no issue for this heavy duty unit
- Adjustable torch support allows for piercing away from the cut, to then be moved to the cut line
- Vertical pipes are no problem when coupled with our optional guide strips
- 100% manufactured in the EU with full CE Certification
- 1 year warranty

ACCESSORIES

GUIDE BAND

- Can be manufactured to cover a wide range of pipe sizes
- Designed specifically for beveling machines
- Prevents the machine from lifting or slipping on vertical applications
- A cost effective solution

MOTORIZING KIT - BATTERY READY

- Industrial grade, brushless motor for durability and long life
- Intelligent speed control allows for flame or plasma cutting
- Yellow polymide control box with convenient carrying handle
- Accepts DeWalt style 20v batteries (not included)
